

EST. 2018 · PLOVDIV, BULGARIA

# Moving liquids across Europe.

Food-grade liquids, ADR dangerous goods and dry cargo —  
carried across the European Union since 2018.

— 01 — WHO WE ARE

# A family trade, on the road across Europe.

G-Royal was founded in Plovdiv in 2018, built on **years of family experience in the dairy industry**. That background taught us how food-grade liquids should be handled — and we built our fleet around it.

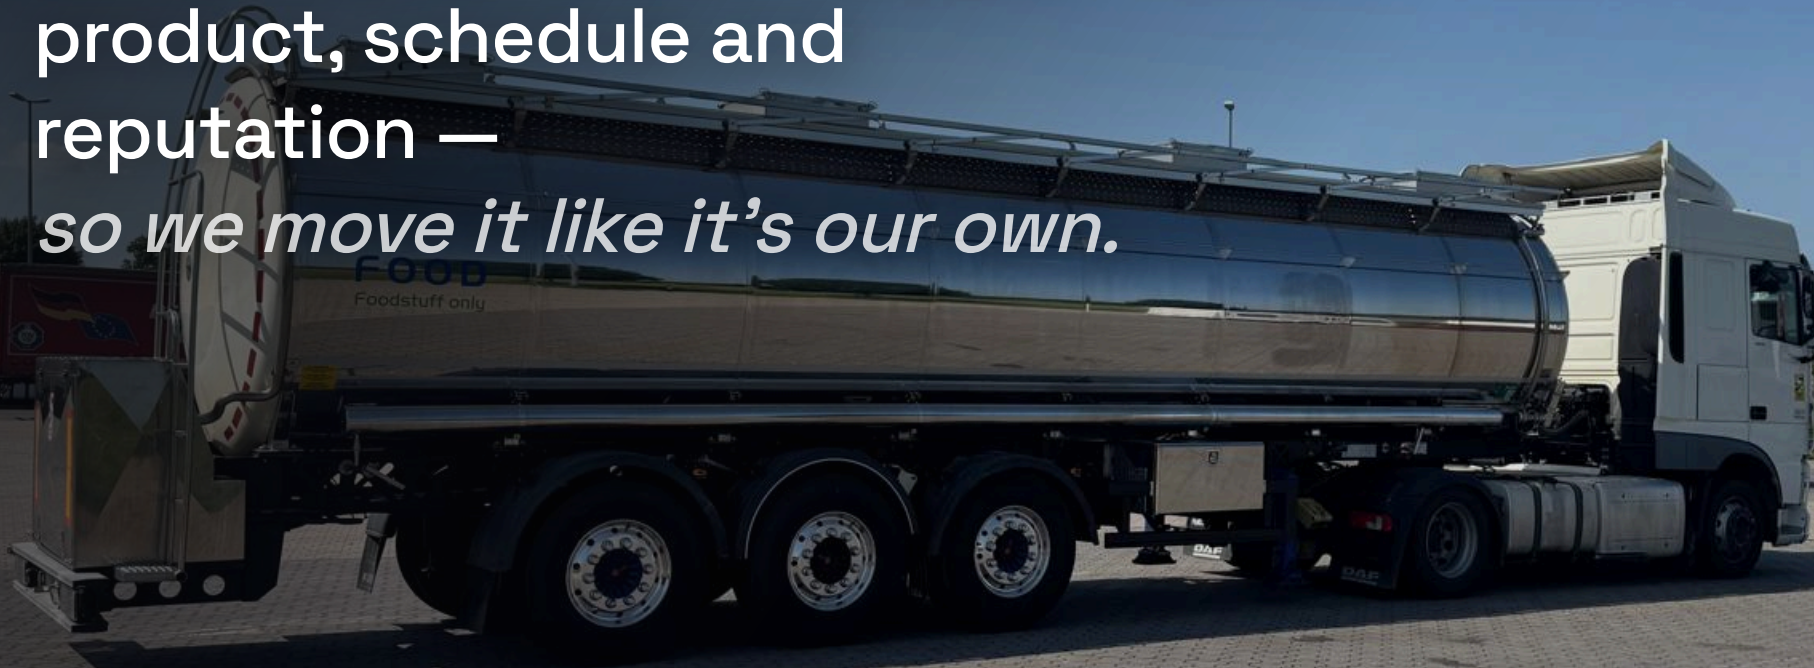

Today we move liquid food, ADR goods and dry cargo across the EU, handling each shipment with the same care and clear paperwork.

— OUR MISSION

Every shipment is someone's  
product, schedule and  
reputation —  
*so we move it like it's our own.*

— 02 — BY THE NUMBERS

# The story, in figures.

Eight years of work in liquid-food, ADR and dry-cargo transport across the EU.

2018

Founded in Plovdiv, Bulgaria

8+

Years in liquid-food transport

3

Cargo classes — food, ADR & dry

100%

Compliance checked on every dispatch

# Five ways we move your cargo.

01

## Liquid food transport

Raw milk, juices, oils and dairy concentrates in food-grade stainless-steel tanks. Certified cleaning between every load.

02

## ADR dangerous liquids

Chemical liquids carried under ADR rules — trained drivers, certified equipment and a full safety protocol.

03

## Curtain-sided loads

Flexible, economical capacity for palletised, oversized and heavy dry cargo across the EU.

04

## Tail-lift delivery

Loading and unloading without ramp access — ideal for last-mile and warehouse-free delivery points.

05

## Refrigerated chain **COMING**

Temperature-controlled trailers for chilled and frozen cargo, holding a steady temperature from loading to delivery. We're adding these to our fleet now.

# Built around the cargo.

Mercedes-Benz Actros trucks, food-grade tanks and GPS tracking — every vehicle maintained, documented and ready for the road.

---

## 01 Euro 6 Actros trucks

Low-emission Mercedes-Benz trucks, serviced on schedule.

---

## 02 Food-grade steel tanks

Certified for milk, juice, oils and dairy.

---

## 03 Pumps, heating & GPS

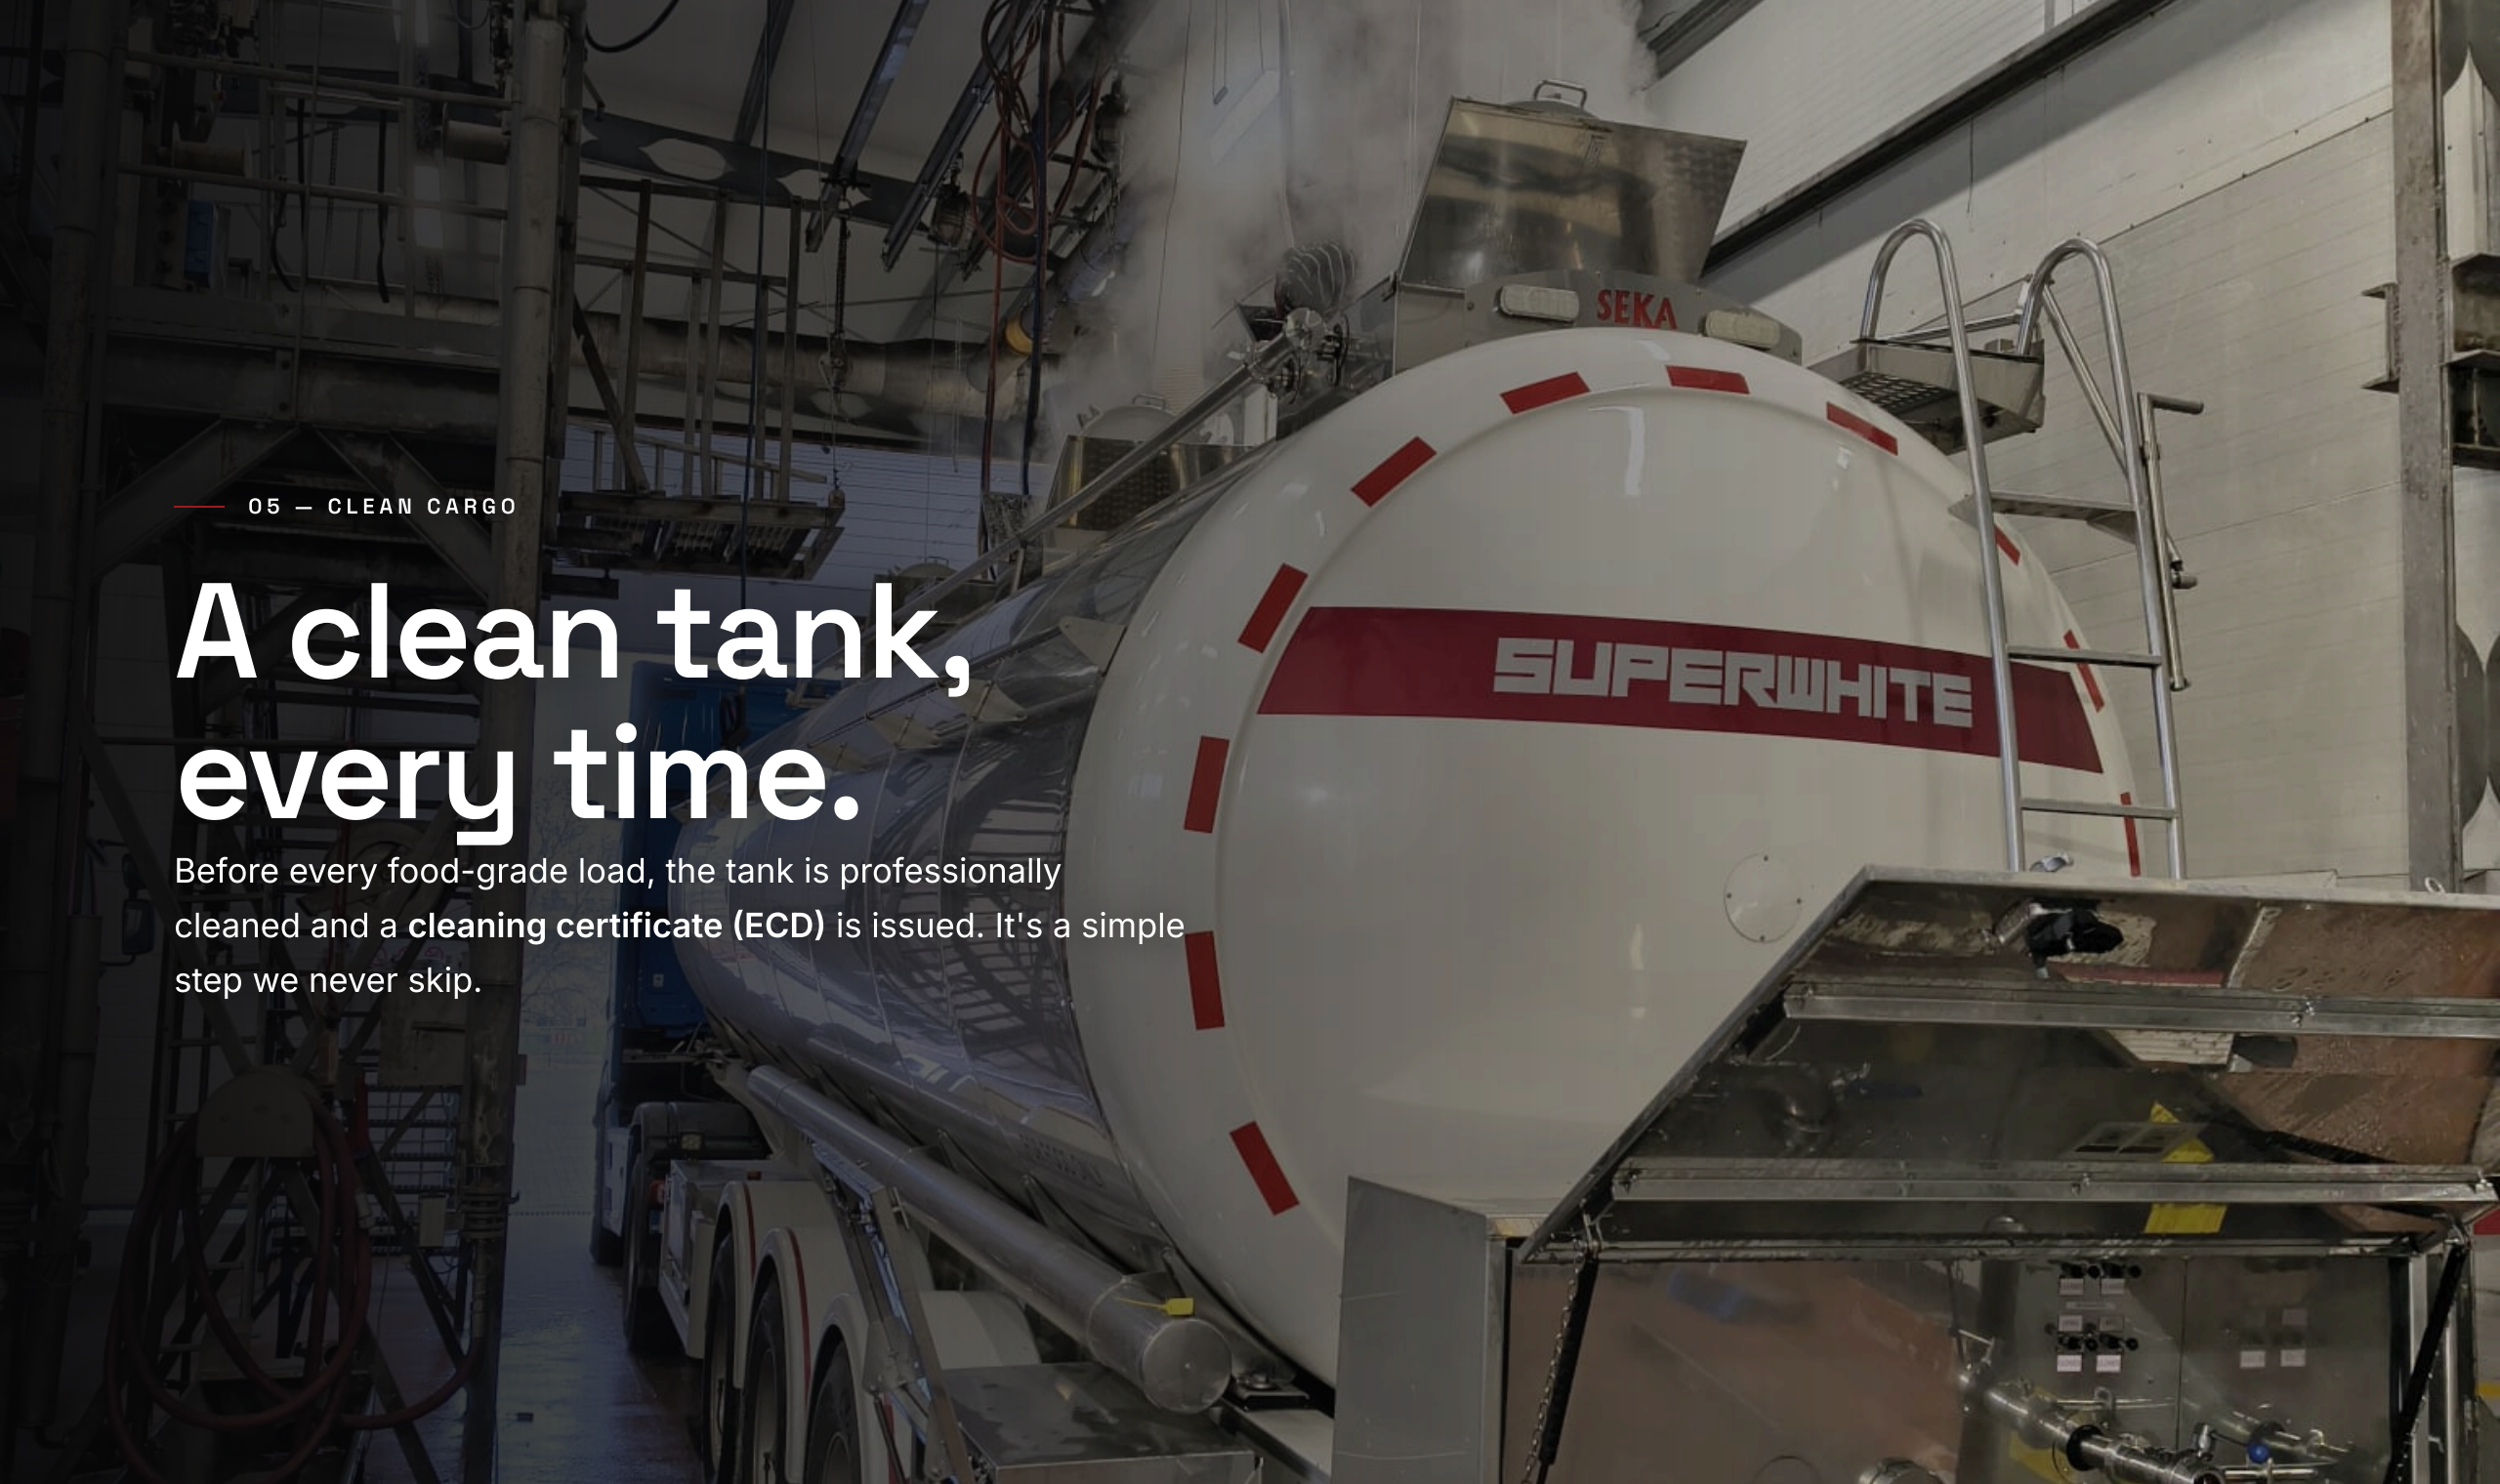

Controlled discharge temperature, with GPS tracking on every route.

---

MERCEDES ACTROS · FOOD TANKER

05 — CLEAN CARGO

# A clean tank, every time.

Before every food-grade load, the tank is professionally cleaned and a **cleaning certificate (ECD)** is issued. It's a simple step we never skip.

# Why clients stay with us.

Clients come back because they know what to expect — careful planning, clean equipment, clear communication and proof of delivery.

---

## 01 Flexibility

A diverse fleet and adaptable dispatch team that match the right equipment to each load.

---

## 02 Reliability

Deadlines observed, routes planned with care, transparent communication at every stage.

---

## 03 Personal service

Every job is managed individually — from needs review to delivery confirmation.

---

## 04 Clean-cargo guarantee

Verified tank cleaning and documentation before every food-grade load.

---

## 05 Continuous investment

Ongoing upgrades to the fleet, driver training, tracking and refrigerated capacity.

---

# Certified and compliant.

## ADR 2025

Dangerous goods — classes 3, 6, 8 and 9.

## CMR

Insured carriage under the CMR Convention.

## Euro 6

Low-emission fleet as standard.

## EU hygiene

Regulations 852/2004 and 178/2002.

## ECD

Cleaning document issued per dispatch.

## GDPR

EU 2016/679 data protection.

# From Plovdiv, across Europe.

Daily international routes to major EU markets — with customs and CMR paperwork handled in-house.

# The road ahead.

## Refrigerated chain

IN PROGRESS

Adding temperature-controlled trailers for chilled and frozen cargo.

## Fleet expansion

More trucks and trailers across food-liquid, ADR and dry-cargo work.

## Better tracking

More detailed live tracking and clearer route planning.

## People & training

Ongoing training, ADR refreshers and certified-driver programmes.

# Let's move.

Tell us what you need to move. We'll reply with a route, the right vehicle and a clear quote.
